Storm Drain Upgrades Washington Avenue – Gorge Road to Cecilia Road

Starting this winter, the City of Victoria will be completing storm drain upgrades to improve rainwater management in your neighbourhood. Work is expected to begin early February and be completed in May 2023.

Project upgrades include:

- **Storm Drain Installation:** Existing clay stormwater mains will be replaced with larger PVC mains to improve rainwater management. Property services will be upgraded as required.
- **Street and Sidewalk Repairs:** Asphalt and sidewalks will be upgraded as needed.

City crews will work to minimize inconveniences during construction. Local vehicle and pedestrian access may be temporarily restricted at times.

Thank you for your patience and support while this work is completed. If you have any questions or concerns regarding this project, please contact the undersigned at 250-883-0472 or by email at kturpin@victoria.ca.

Regards,

Keith Turpin, A.Sc.T.
