

# Gorge Road Safety Improvements Breaking Ground

- Road paving
- Protected bike lanes
- New sidewalk
- New crosswalk
- Painted bikeway
- Painted bike lanes
- Intersection safety upgrades
- Underground water main replacement

To improve road safety for everyone, the City is making transportation improvements on Gorge Road from Blanshard Street to Harriet Road. The project will include one-way protected bike lanes on each side of the road, paving, transit stop and accessibility upgrades, new and upgraded traffic signals and crossings, landscaping, right turn slip lane removal and underground water main replacement.

Construction is beginning April 2024 and will continue into 2025.

Please use caution when traveling near construction zones. Slow down and follow the directions of signs and crews for your own and others.

**This will be your final notice of construction.**
